EXECUTIVE SUMMARY

I am a motivated B.Tech student in Artificial Intelligence and Data Science with a strong interest in AI, machine learning, and data analytics. I enjoy exploring new technologies, solving real-world problems, and continuously improving my skills. I am eager to gain practical experience through projects and internships while contributing to innovative and intelligent solutions.chandrusanthosh553@gmail.com

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Frameworks & Libraries: Flask, NumPy, Pandas, Scikit-learn, Matplotlib, TensorFlow

Data Science & AI: ML/DL, Artificial Intelligence, Data Analysis, Natural Language Processing (NLP)

Web Technologies: HTML, CSS, JavaScript, APIs

Developer Tools & Platforms: Git, GitHub, VS Code, MongoDB, SQL

Analytics Tools: Excel, PowerBi (Including Formula's)

PROJECTS

Assista – AI Assistant for Visually Impaired

- Designed a voice-controlled assistant to help visually impaired users perform daily tasks independently.
- Implemented speech recognition, NLP, and camera capture to enhance accessibility and usability.

IoT-Based Onion Storage Monitoring System

- An IoT system to monitor temperature, humidity, and gas levels in storage environments.
- Automated ventilation control and enabled real-time monitoring to reduce spoilage.

Medical E-Commerce Website

- Developed a medical e-commerce website that allows users to browse and purchase medicines and healthcare products online.
- It helps users access medicines easily with features like product listing, ordering, and secure purchase options.

Smart Vehicle Tracker (Real Time Map)

- I developed a smart vehicle tracking system that uses real-time maps to monitor the live location of vehicles.
- It helps in easy location tracking, improves safety, and supports efficient vehicle management.

EXPERIENCE

Itern | IBM - Naan Mudhalvan

- Intern (Ongoing) | IBM – Naan Mudhalvan | Full Stack Development
- Currently undergoing Full Stack Development training under IBM through the Naan Mudhalvan program, gaining hands-on experience in front-end and back-end web development.

Intern | YBI Foundation.

- Worked on practical projects related to data analysis and machine learning.
- Gained hands-on experience with real-world datasets and model building.

ACHIEVEMENTS & ACTIVITIES

VISAI 2025 (15th International Project Competition & Exhibition)
Exhibited IoT-Based Smart Onion Storage Project under SDG: Industry, Innovation & Infrastructure.
(Feb 24, 2025 | Chennai)

IBM Naan Mudhalvan Final Hackathon
Presented an AI-based Employee Performance & Productivity Analysis solution.
(Oct 11, 2025)

KEC 30-Hour Hackathon
Developed an IoT-Based Smart Onion Storage System during a 30-hour hackathon.
(Mar 10–11, 2025)

RBI State-Level Quiz Competition

EDUCATION

B.Tech – Artificial Intelligence and Data Science
Velammal Institute of Technology, Tamil Nadu
2023 – 2027
CGPA: 8.69(Up to 4 Sem)

CERTIFICATIONS

- Design And Analysis of Algorithms – NPTEL (Score: 50%)
- Inernational Conference On Data Analytics
- RBI- Competition (Stae Level)
- Full Stack Devlopment
- Data Analytics (NoviTech)
